Tokenization

01

Break a complex sentence into words

02

Understand the importance of each of the words with respect to the sentence

03

Produce a structural description on an input sentence

Tokenization

Lemmatization

Groups together different inflected forms of a word, called Lemma

Somehow similar to Stemming, as it maps several words into one common root

Output of Lemmatisation is a proper word

For example, a Lemmatiser should map *gone*, *going* and went into *go*

Stop Words

Are they Helpful or Not

POS : Parts of Speech

POS

english questions prepositions verbs

gerunds conditionals negative pasts nouns articles present exercises genitive affirmative adjectives speech relatives future
